Passionate technology enthusiast with extensive experience in homelab administration, network management, and troubleshooting skills. Seeking to leverage hands-on experience with server configuration and open-source solutions to transition into the Information Technology field.

Technical Skills

- **Networking:** VPNs, LAN, Router Configuration, Firewalls, SSH, TCP/IP
- **Operating Systems:** Linux, Windows Server, Kali Linux, MacOS
- **Programming:** Python, C++
- **Virtualization:** Proxmox VE, Oracle Virtualbox

Professional Experience

Homelab Administrator | *Personal Home Network*

July 2023

- Designed, planned managed and deployed a homelab environment for learning and experimenting purposes.
- Configured and deployed open-source software on a Raspberry Pi to serve as a personal home file server.
- Installed and configured open-source Virtual Private Network solution to access home network when not on premises.
- Transferred all machines and network equipment into 32U server rack, gaining hands-on experience with cable management and network administration.

Picker/Packer | *Henry Schein, Inc.*

September 2022

- Pick products from shelves inside distribution centre, voice guided by AI software.
- Put products in respective totes on cart after verifying location and quantity.
- Obtain cart from staging area and pack each tote into boxes, also verifying the correct product, and quantity is the same on packing list.
- Perform various duties in other departments of distribution centre as needed.

Photography Studio Intern | *Henry Schein, Inc.*

November 2023

- Assist supervisor with populating spreadsheets with list of item codes of products that can be photographed.
- Assist in the “check in” and “check out” process of items passing through the studio.
- Produce video for a special project that will be presented in a corporate meeting.
